

## Digidesign Music Production Toolkit: **Important Installation and Registration Information**

Thank you for purchasing the Digidesign Music Production Toolkit. Before you get started, please be sure to read through the following information to get the most out of your software.

**IMPORTANT:** Music Production Toolkit requires Pro Tools LE or Pro Tools M-Powered 7.1 or higher software.

**Find Installation and Operation Info in the User Guides and Read Me Documents—**You'll find an installer for Music Production Toolkit on all Pro Tools LE 7.1 and Pro Tools M-Powered 7.1 or higher software installer discs. Or if you prefer, you can download the Music Production Toolkit software installer from our website by visiting [www.digidesign.com/support/mptk](http://www.digidesign.com/support/mptk) and clicking on the "Optional Software Bundle Installers" link to display the latest Music Production Toolkit download. For help with installing and using the plug-ins that come with Music Production Toolkit, please refer to the *Music Production Toolkit Guide*. Following installation, please be sure to also read the "Pro Tools Read Me" file located in the Pro Tools folder within the Documentation folder. It is an important source of information for your system that is not included in your user guides.

**Find Translated Pro Tools Documents Online—**Many Pro Tools user guides and other documents have been translated into other languages, including Japanese, Korean, Simplified Chinese, French, Italian, German, and Spanish. You'll find these documents available for download on the Digidesign Support website; visit [www.digidesign.com/support](http://www.digidesign.com/support), choose your desired product from one of the pop-up menus, click the Tech Docs link, and then click

on the desired document to display a list of all available translations. When you find the document you want, simply click the Download link to download it.

**Check for Compatibility Info, Software Updates, Support, and More Online**—Please be sure to visit the Digidesign Support site ([www.digidesign.com/support](http://www.digidesign.com/support)) for the latest compatibility information, software/firmware updates, system requirements, late-breaking info, and support articles for Music Production Toolkit and your Pro Tools system.

**Authorizing and Registering Music Production Toolkit—**

The Music Production Toolkit is protected by iLok licenses and requires an iLok USB Smart Key (sold separately), Internet access, and a free iLok.com account to authorize the software for use. The enclosed Music Production Toolkit Activation Card contains a unique code that will allow you to activate and retrieve the licenses needed for the Music Production Toolkit expanded features and included plug-ins. (If you don't already have an iLok.com account, create a free user account at [www.ilok.com](http://www.ilok.com) first.) To authorize and register the Music Production Toolkit, visit the Digidesign webpage listed on the Activation Card, enter your code—exactly as it's printed on the card—in the designated field on the webpage, and follow the online instructions to have your iLok licenses deposited into your iLok.com account for retrieval to your iLok. Once you've activated your Music Production Toolkit licenses, your new software will automatically be registered.

*On behalf of everyone at Digidesign, we wish you many years of creative productivity with the Music Production Toolkit, and thank you for choosing Pro Tools.*
